There were no specific changes, revision and modification of syllabus for the academic year 2020-21 in the following courses of study

M.P.Ed – Master of Physical Education (2 years)

B.P.Ed – Bachelor of Physical Education (2 years)

B.P.E.S - Bachelor of Physical Education and Sports (3 years)

Thus the syllabus was approved.

It was suggested to introduce Outcome-Based Education (OBE).

OBE is an educational theory that is based on an educational system around goals (outcomes) in B.P.Ed courses of study .

By the end of the educational experience, each student would have achieved the goal. There would be no single specified style of teaching or assessment in OBE; instead, classes, opportunities, and assessments would help students achieve the specified outcomes.

The role of the faculty adapts into instructor, trainer, facilitator, and/or mentor based on the outcomes targeted. OBE also uses the same methodology formally and informally adopted in actual workplace to achieve outcomes. It focuses on the following skills when developing curricula and outcomes: Life skills, Professional and vocational skills, Intellectual skills, and Interpersonal and social skills .

It was resolved, that the B.P.Ed course in our college has sufficient elective papers . Add on and Optional courses along with Distance Education courses offered by TNPESU where Life skills, Basic skills, Professional and vocational skills, Intellectual skills, Inter personal skills are taught extensively as mentioned in Outcome-based education (OBE). So it was suggested that such nomenclature is not necessary for our curriculum.

The Committee approved the minutes of BOS.
