Respected Sir,

I'm a student of MPED I<sup>st</sup> year, have been under some misbehaviour's from our college principal. He has been flirting with me from the day I have joined the college. At times even if I ignore him he comes to me and talk. If I don't want to give hands to him, he tries to pull up my hand and holds my hand for a long. In class he tries to come close to me, keep his face near to my face. If he sees me in the college campus he talks with me for hours. And once he asked to come to his house so that he will teach me. In the evening research class <sup>27/09/22</sup> @ 7pm he came and hugged me in front of the class while I was sitting in the class in front of the other students.

Y. Umekulsum  
yours faithfully

complaint letter

Once Abigail my classmate called me to Gym for workout so I accompanied her to the Gym. That the time when I was doing dumbbells workout suddenly the principal <sup>George Abraham</sup> came from behind and caught my hip and said to Abigail that my hip was stronger than her hip.

And during the Athletic jersey measurements, we were sitting in the gallery near the long jump pit.

Principal came and was speaking with us that time he said to one of my friend that

Page - 28

She is 18 year old and myself 17 so he can't come close to me but can go close to her coz she was 18 age. That time while talking with us he touched my friend's thigh.

Once when I went to get a signature from principal regarding state selection for Roller Skating principal asked me to come close to him so that he wants to check my abdomen strength. But I refused to go close to him.

He asked for my achievement details and I sent it through whatsapp.

Thank you.
